

Adapter

GM85-360200-36V/2A

Feature:

* Dedicated power adapter of the extension box, provide DC 36V/2A power supply.

* Reliable circuit protection, including short circuit protection, over-current protection, over-voltage protection.

Specifications:

Model	GM85-360200-36V/2A
Input voltage	100 ~ 240VAC
Input frequency	50 ~ 60Hz (Limits : 47 ~ 63 Hz)
Input current	2.5Arms max
Output voltage	36V
Output current	2A
Output power	Maximum power 72W
Ripple	240mV max
Over-voltage protection	Support
Over-current protection	Support, can be automatically restored to normal circuit
Short circuit protection	Support, can be automatically restored to normal circuit
Working temperature	0 °C~+35°C
Working humidity	20%-80% relative humidity, no condensation
