

### Description:

The passive subwoofer system, and the customized high-power woofer provide a powerful bass effect, which is specially suitable for professional sound systems with high requirements. It is applicable to various performances, stadiums, theaters, auditoriums, banquet halls, multi-function halls and so on.

### Feature:

- \* Two custom 18-inch subwoofers.
- \* Inverted design, high energy density, great instantaneous dynamics, and great sound performance.
- \* Quality high-density birch housing, precision CNC processing, internal reinforcement structure design, strong and solid cabinet.
- \* Professional speaker sockets and plugs have good electrical characteristics.
- \* Emery spraying process, high-end and wear-resistant appearance.

### Specification:

Model	TK-218S
Type	Inverted subwoofer
Nominal impedance	4Ω
Frequency range	30Hz-250Hz
Rated power	1200W
Peak power	4800W
Sensitivity	103dB/W/m
Maximum SPL(rated/peak)	134dB/140dB
Woofer	18" (100mm voice coil) *2
Net weight	68.5kg
Size	630×1040×770mm (H×W×D)
